

Vet BioSIS™ Single Sheet

Vet BioSIS™ is for use as a surgical patch for soft tissue repair or reinforcement. It promotes wound healing and tissue remodelling by providing a biocompatible, absorbable scaffold for tissue ingrowth. Supplied sterile in peel-open packages. Intended for ONE TIME USE.

Intended for VETERINARY USE ONLY.

Order No.	Remarks
V-LSIS-070100	One standard lyophilised Vet BioSIS™ sheet, 70mm x 100mm.

Vet BioSIS™ twin Pack

The twin packaging allows one sheet to be left sterile for use at a later date. Intended for ONE TIME USE. Intended for VETERINARY USE ONLY.

Order No.	Remarks
V-LSIS-070040-2	Two lyophilised Vet BioSIS™ sheets each, 40mm x 70mm, individually packaged

Vet BioSIS™ Ocular Disk

Suitable applications are corneal lacerations, periodontal grafts, delayed closure of dermal wounds, organ patching and adhesion barrier. Supplied sterile in peel-open packages. Intended for ONE TIME USE.

Intended for VETERINARY USE ONLY

Order No.	Remarks
V-LSIS-D-010-4	Four ocular discs, 10mm in diameter, individually packaged.

Intraosseous Needles

Used as an alternative to intravenous catheter access during emergencies. Positioning of the needle within the tibial, femoral or ulnar medullary cavity facilitates infusion of resuscitative drugs and fluid. Supplied in peel-open package. Intended for ONE TIME USE. Intended for VETERINARY USE ONLY.

Order No.	Remarks
V-DIN-14-3.0-POWCH	14 gauge needle, 3.0cm length.
V-DIN-16-3.0-POWCH	16 gauge needle, 3.0cm length.
V-DIN-18-3.0-POWCH	18 gauge needle, 3.0cm length.
V-DIN-20-3.0-POWCH	20 gauge needle, 3.0cm length.

"Flexi-Drain" Multi-Purpose Wound Drain - Silicone

A silicone tubular drain that may be trimmed or used as one piece for surgical wound drainage. Drain can be split along its length or trimmed to length to suit individual requirements. Catheter material is non-radiopaque. Intended for VETERINARY USE ONLY.

Order No.	Remarks
V-PWD-12-40	A 40cm long drain consisting of twelve (12) catheter lumens joined together, each of 3.0mm diameter.

Rabbit Tracheostomy Tube Set

A 6 French polyurethane tube with airway adaptor to establish a tracheostomy in rabbits or other animals. Introduced as one unit with a central percutaneous needle Ribbon tie included in the set to assist in securing the tube. Intended for VETERINARY USE

Order No.	Remarks
V-RTTS-1.4-5	Set consists of a 1.4mm I.D. polyurethane tube, 5.0cm long with airway adaptor. A 19 gauge one part needle is matched to fit inside the tube for tube introduction
